What others say

I served as past Chair of the New England Chapter of the Network for Executive Women. Eileen McDargh was the consummate professional throughout the entire process, from developing the program content to her inspirational delivery to our group. Her keynote entitled, "Radical Resiliency: Leadership Skills for Changing Times", received a 99% positive rating, THE highest rating of any NEW speaker, with several attendees commenting that she was one of the best speakers they had seen. Very high praise... but very well deserved.
